BRUSH TURBOGENERATORS ANNOUNCES THE ACQUISITION OF GENERATOR & MOTOR SERVICES, (GMS) OF PITTSBURGH, PA.

BRUSH, the world's largest independent manufacturer of turbogenerators has announced the acquisition of Generator & Motor Services (GMS) of Pittsburgh, PA. BRUSH has a long history of manufacturing power generation equipment for utility, oil & gas and industrial applications. BRUSH, an established OEM since 1879 operates factories in the Czech Republic and The Netherlands in addition to its main manufacturing facility in the United Kingdom.

For over 20 years, GMS has provided engineering driven solutions for generator maintenance services supporting the power generation industry. Since its inception, GMS has provided a full range of inspection, testing, engineering, repair and patented retrofits of generators for all major OEM's throughout the United States.

Martyn Vaughan, Managing Director of BRUSH said "This is a significant investment and we are pleased that BRUSH will now be able to provide enhanced aftermarket services to our customers in support of the large BRUSH installed base in the United States."

"We are extremely excited about the opportunities BRUSH's technical experience and financial resources brings to GMS" said Paul Heffernan, President of GMS. "We will now be able to better support our customers and offer a more complete range of aftermarket services for the entire power generation industry throughout the United States."

For more information, please contact Bob Fuller, manager of marketing at GMS at 412 829-7500.
